

## How to Cut the Cord (From Cable & Satellite)

- Here is where to begin.
- Start with TRSmiCloud High Speed Internet
- You will need either a smart TV or a streaming device like a AppleTV, FireStick or RokuTV.
- Select the TV Streaming Service like YouTube TV, Hulu Live, Sling TV, AT&T TV Now or fuboTV.
- Check the attached guide with the best plans and deals and make your selection!

### If you are not sure

- First think about your TV viewing habits and choose a program that suits you.
- **Light Streaming:** Explore the many Free Streaming Services such as Peacock, Crackle, IMDbtv, Tubi and much more.
- **Medium Streaming:** Upgrade your Light Streaming and add subscriptions such as Netflix, Prime Video and Hulu.
- **The Big Streamer:** Subscribe to full streaming services such as YouTube TV, Hulu Live and Sling TV.

You will need to check on-line for there are new Streaming Services being launched regularly.

*Explore the possibility of a **Virtual Assistant** like Alexa, Google or Siri. Stream music, the news and much more, make phone calls, create a shopping list, check sports scores or even the weather.*

For more help the TRS team will do their best to help you.
